SUMMARY

Business systems analyst with an MBA who connects operations to the software that runs them. I document workflows, write requirements, plan staged roadmaps and deliver working systems: PartsFlow Pro for inventory, sales and suppliers, DALIguro for school operations, and spreadsheet systems with reconciliation checks. Experienced in feasibility studies, financial projections and franchise development.

CORE SKILLS

Solution design: workflow mapping, technical requirements, product roadmaps, MVP scoping, release gates, QA and testing, technical documentation

Business: feasibility studies, business plans, financial projections and break-even analysis, franchise development, social media content and ads

Data and security: relational schema design, row-level security and role-based access, database migrations, data validation and reconciliation

Excel automation: advanced formulas, VBA macros, dashboards, automated DepEd forms (SF2, SF9, SF10), printable reports

Software and AI: AI-assisted application development (Claude Code, Codex, ChatGPT), prompt design, Next.js, React, TypeScript, Vite, Supabase, PostgreSQL, SQL, Vercel, Git, GitHub, pull-request and release workflows

Instructional design: learning objectives, lesson plans and modules, assessments and rubrics, item analysis and remediation, curriculum alignment

EXPERIENCE

Senior High School Teacher 2017 – Present

Department of Education (DepEd), Philippines

- Teach Senior High School subjects including Entrepreneurship, FABM, Applied Economics, Business Math, Business Finance, General Mathematics, Contemporary Literature and Media and Information Literacy.
- Coordinate SHS class programming and teacher loading; built an automated class programming and teacher-load analysis tool covering 15 sections.
- Designed a General Mathematics diagnostic and intervention cycle and a data-informed item analysis and remediation framework.
- Develop DepEd-aligned lesson plans, modules, assessments, answer keys and rubrics.
- Coached athletes to three 2026 Western Visayas Regional Athletic Association (WVRAA) medals: silver in Shot Put, bronze in Discus Throw and 100 m Dash.

Founder and Developer, DALIguro 2024 – Present

AI-powered teacher workspace for DepEd Senior High School · daliguro-main.vercel.app

- Designed and built a multi-tenant web app that turns teachers' daily routines into one workspace: Teacher Command Center, curriculum setup, attendance, e-grading and consolidated grades.
- Built an AI lesson generator around the ILAW workflow, an assessment builder, PowerPoint export and DALI, an in-app AI assistant.
- Built a QR assessment module: learner QR codes, printable exams, fast and batch score encoding with validation, and sync to grading and parent reports.
- Implemented per-teacher data isolation with Supabase row-level security, database migrations, and pull-request release gates with test, type and build checks.
- Stack: Next.js, TypeScript, Supabase/PostgreSQL, Vercel, GitHub Actions.

Excel and VBA Systems Developer, DALIguro Ongoing

Offline school systems for teachers

- SF9 Master: macro-enabled workbook that produces the DepEd School Form 9 report card from one learner masterlist, with Term 1–3 consolidation and 60 adviser remarks across five performance bands; sold to schools as licensed client copies.
- Smart Item Analysis and Intervention System: finds least-learned competencies, learner proficiency levels and priority items for up to 60 test items; generates remediation plans, ILMP and printable reports aligned to DepEd Order No. 8, s. 2015.
- Smart Attendance System v5: one workbook for all sections with a shared engine for dashboard, report and calendar, a reconciliation check, and a guard against encoding into the wrong section or month.

Founder and Developer, PartsFlow Pro Pilot

Inventory and sales system · partsflow-pro.vercel.app

- Built an inventory and sales system, now in pilot, with product catalog, low-stock alerts, point of sale, supplier management, customer ledger and sales analytics (Next.js, Supabase, Vercel).

Founder and Business Developer, Asenso Gas One Active

Micro fuel station franchise venture

- Designed three franchise tiers, wrote the content and ran boosted Facebook ads; grew the page to 1,000 followers, with a top boosted post reaching 64 reactions and 57 comments.

Social Media Manager, PrimeShade Auto Tint Active

Client work · Capiz, Iloilo and Aklan

- Manage page content, promotional campaigns and lead-generation posts.

Freelance Business Consultant Ongoing

- Prepare feasibility studies, business plans, financial projections and franchise packages for startups, expansions and lending submissions.
